Marble Finish

PRODUCT DESCRIPTION: Marble Finish is an all weather, non-staining release agent for easy void free and smooth release of concrete. Marble Finish yields very high quality architectural concrete finishes. The release provides corrosion inhibition of steel forms, very high heat resistance with no powdery residues. Marble Finish is also shipped with no red label due to the slower evaporating solvent now used and is not considered a flammable liquid.

AREA OF APPLICATION: Apply Marble Finish by brush, roller, sprayer, lightly oiled mop or by fogger on steel, sealed concrete, coated wood and fiberglass molds, Plexiglas and other synthetic mold surfaces. For the ultimate in positively void-free snow white smooth castings. Marble Finish yields a soft marble-like appearance and can be used on white or gray cements surfaces with equal results.

DIRECTIONS: Remove any oil or grease residues from the form surface left from previously used releases. Apply Marble Finish onto the forms at a rate of 3,000 -5000 sq.ft. / gal. Wipe out excess oil with a slightly oil moistened mop or rag. Allow release to dry prior to concrete placement.

TECHNICAL DATA: Appearance and odor: clear in color. Specific gravity is between 0.80-0.84. Flash point - 145° F. Solubility in water, insoluble.

SHELF LIFE AND STORAGE: Two years from manufacturing date in closed original container.

PACKAGING: 5-gal plastic pails, 55-gal plastic drums, 275-gal totes

SAFETY: Keep away from flames or sparks. Store in cool dry area.

SHIPPING CLASSIFICATION: Non-regulated in non-bulk packaging. Bulk packaging (>119 gals): UN3295, Hydrocarbons liquid, n.o.s. (aliphatic petroleum distillates), 3, PG:III
